WESTHAMPNETT COMMUNITY HALL

Serving Westhampnett, Maudlin and Westerton

Hadrians Drive, Westhampnett, West Sussex, PO18 0FP

COSHH Statement

The Management Committee of Westhampnett Community Hall are very aware of the dangers of storing chemicals in a public place, it is for that reason that we have written the following statement.

Where possible Eco-friendly detergents will be provided for the use in the Community Hall. Those used in the kitchen will be locked away in a high cupboard where small children can't reach them, but Hirers of the hall will be able to access them. The dishwasher detergents are attached to the dishwasher by pipes. These are located in the kitchen unit next to the dishwasher, this is also locked. Hirers can remove the key in the door, if there are small children in the Hall.

Chemicals that are used for cleaning the Hall floor and toilets will be locked in the storeroom located through the Ladies toilet facilities. The cleaner will use them and put them back in the locked room. No toilet cleaning materials will remain in the toilets.
